

# About us

Five Henry Risk Management Services (FHRMS) was established with the aim of helping organisations of all sizes to promote a positive safety culture and effectively manage health and safety in the workplace.

We operate on the basic principles of maintaining simplicity, practicability and creating workable solutions to your health and safety needs. Our priority is to ensure the health, safety and welfare of all employees, volunteers, contractors, or member of the public work or operate in a safe working environment.

We develop robust and bespoke policies, procedures and good practices guides that are simple workable, and easy to be implemented making it quite easy to achieve “buy in” from the workforce at all levels.

Our unique approach is not only what differentiates us, but also what makes us successful.

With extensive experience working within the Charity, Education and Retail Sector, our experts at Five Henry Risk Management have a thorough in-depth knowledge and understanding of the enormous challenges these sectors face relating to effectively managing health and safety.

We will use this experience to benchmark your risk management quality, raise standards and create a positive health and safety culture within your organisation.

# We can help with...

## Fire Risk Assessment

Our fire risk assessor will carry out a comprehensive and systematic review of the potential fire risk in your organisation and produce an "Action Plan" with practical solution to address any significant findings.

## Safety Audits and Workplace Inspections

We can visit your premises at a time convenient to you to carry out health and safety audits and workplace inspection to evaluate your organisations health and safety standard and ensure a healthy and safe working environment is being maintain.

## General Risk Assessment

We will conduct a careful examination of what could cause harm in the workplace and work with you to develop and implement suitable, sensible, and proportionate control measures.

## Health and Safety Consultancy

Our consultants will work with you to review your organisations health and safety management system and provide continuous ongoing health and safety support to address issues identified.

## Training

We combine practical experience, along with extensive training skills and a wealth of industry knowledge to design, develop and deliver training courses that reflect your requirements.

## Fire Door Inspections & Compartmentation Survey

We offer a comprehensive fire door and fire compartmentation survey. Poor management of fire doors can put the safety of relevant person at risk. Additionally, fire compartmentation is required to limit the spread of fire between areas and building and in reducing the extend of damage to the property.
