| About WEIBANG®

Maximum reliability and the highest level of performance, even in extreme conditions, this is the hallmark of Weibang machines. Every detail of a Weibang machine is designed to last, with heavy duty, professional quality components and the highest quality materials. A Weibang Pro machine is designed to maximise productivity and minimise downtime, helping to increase your profitability and efficiency .

20
years.

"After 20 years our goal has never changed...
To continually pursue the very highest quality,
never compromise, and exceed our customers'
expectations"

Victor Ju
CEO

Highest Quality Manufacturing

Weibang use the latest manufacturing techniques, offering the highest quality components with a strict quality control process. Utilising the latest technology and robotic welding equipment, you can rest assured that every Weibang machine is built to the same high quality standards.

Designed for the UK

Weibang machines have been specifically designed for the UK, with the Legacy rear roller range being 100% designed by our UK team, from the ground up to meet the demands of the professional user. Due to the UK's unique weather conditions we have engineered each product to perform at its optimum in all conditions.

5 REASONS TO CHOOSE A WEIBANG DEALER

1. GARDEN MACHINERY SPECIALISTS

Weibang authorised dealers are not just sales outlets, they are garden machinery specialists with years of experience in the industry. They service what they sell and have expert knowledge of the range.

2. EXPERT ADVICE

Weibang authorised dealers not only have expert knowledge of the range, but also of the applications they are best used in and how to get the most from your machine. This experience ensures you always get the right machine for the job.

3. FULL SPARE PARTS SUPPORT

Our UK distribution centre stocks a full range of spare parts for all Weibang garden machinery. Our nationwide network of service dealers can order these spare parts, which in most cases are delivered to them the next working day.

4. TRAINED SERVICE TECHNICIANS

All Weibang authorised dealers have full workshop facilities and trained service technicians to support any machines sold. This ensures that any service or warranty work is carried out to the highest standards, whilst keeping downtime of the machine to a minimum.

5. PREMIUM SALES EXPERIENCE

When you buy a Weibang product from an authorised dealer there are many benefits over and above the fact you receive expert advice.

All machines are fully assembled, given a pre-delivery inspection, registered on behalf of the customer and include a full customer handover, to ensure you get the best from your machine.

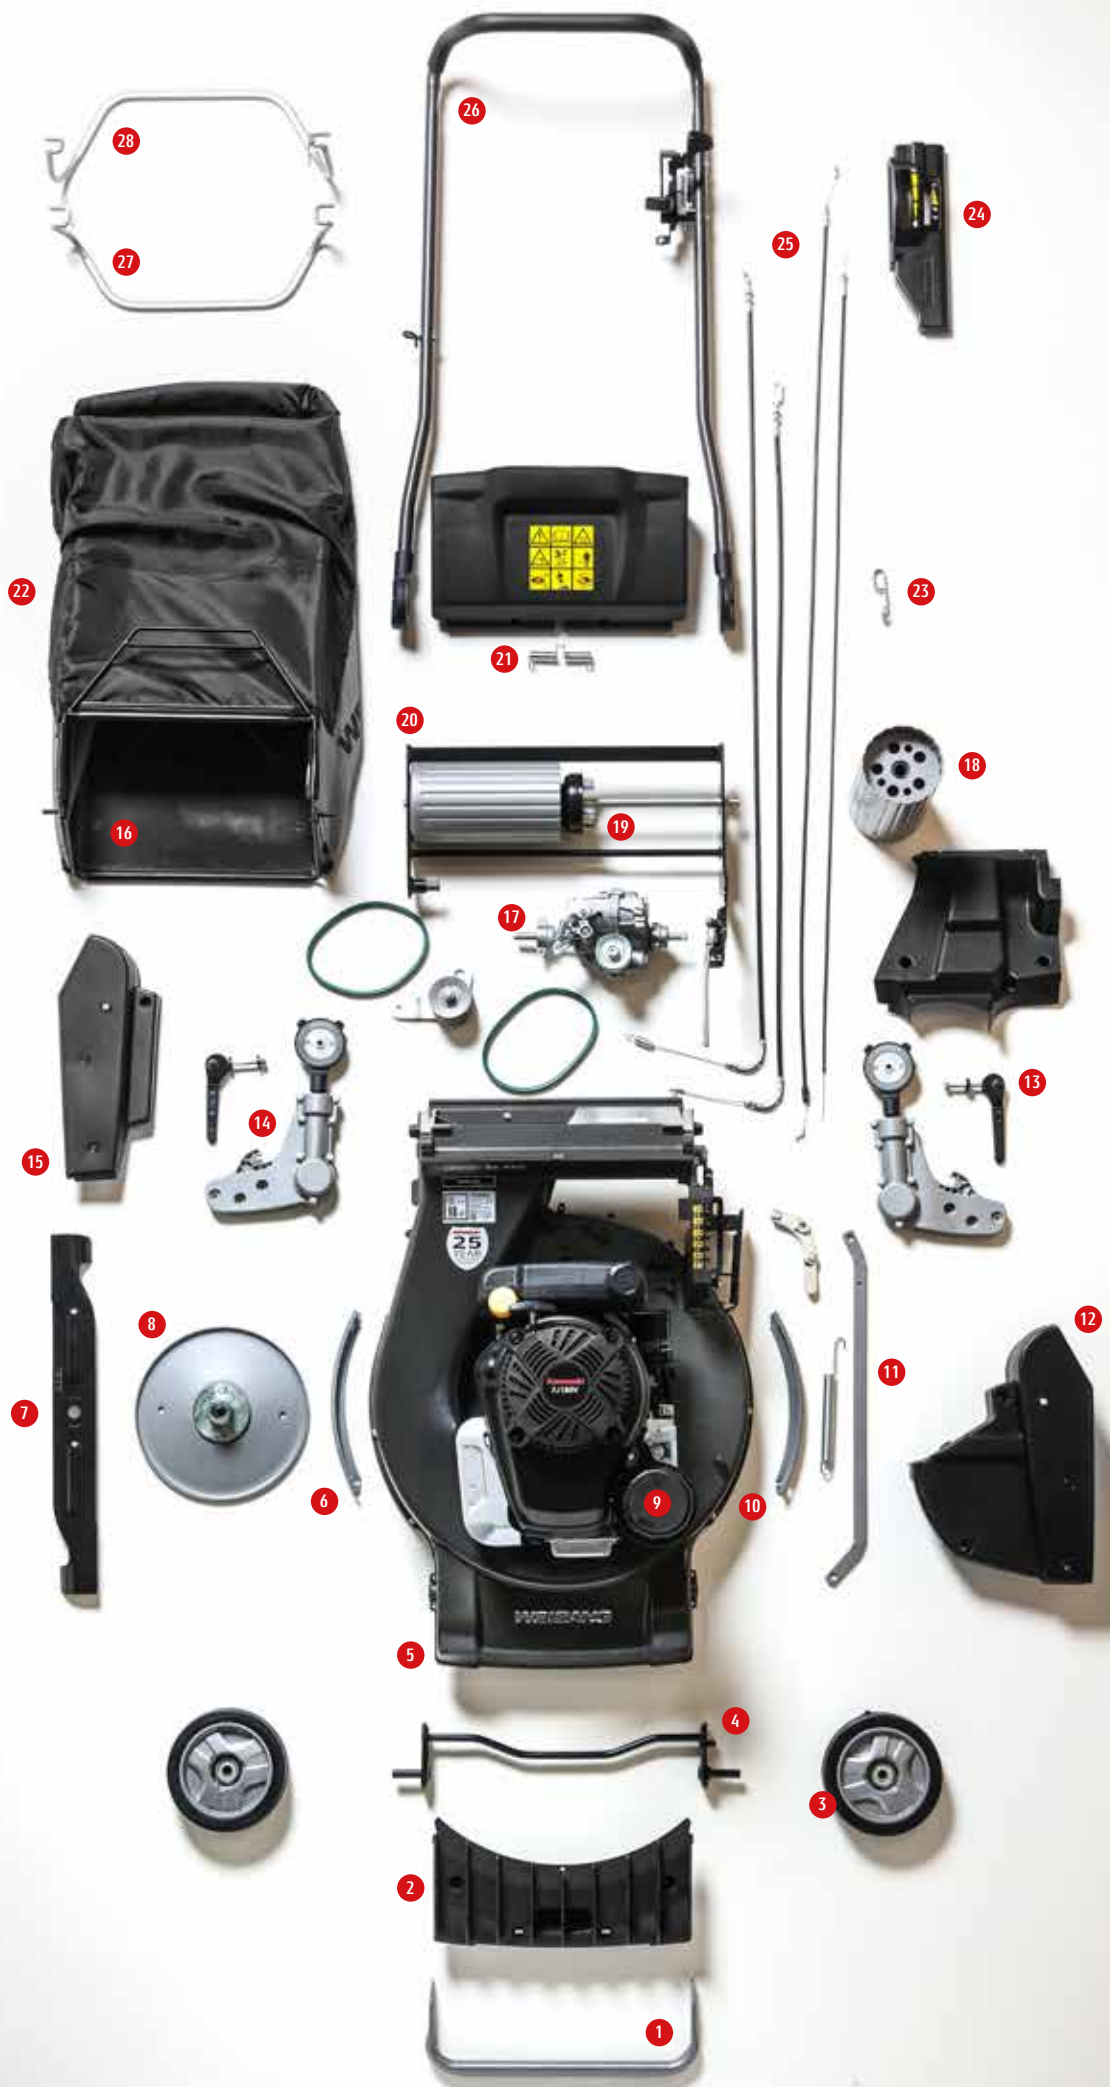

FIND YOUR LOCAL WEIBANG DEALER

Weibang authorised service dealers have been carefully selected and are happy to provide you with both advice when selecting the right product to meet your needs, and a premium aftersales service for the life of your product.

Visit www.weibang.co.uk or call us on 01963 828066 to find your closest dealer now.

Want to buy online and still have the benefits of an authorised dealer? Visit www.weibang.co.uk where any orders placed online will be fulfilled through your local Weibang dealer.

COMPONENTS THAT **MAKE A DIFFERENCE**

HEAVY DUTY 3-SPEED GEARBOX

The heavy duty 3-Speed Gearbox is designed to withstand heavy workloads associated with professional use.

HIGH PERFORMANCE AIRFLOW BLADE

The optimum airflow created under the mower deck is achieved through the special design of the blade, with fins angled in such a way to achieve incredible collection performance, even at low cutting heights.

FULL ANTI-VIBRATION

The professional user demands a mower which is comfortable to use all day long. Legacy PRO handle brackets feature a full anti-vibration system, fully isolating the handles from the cutter deck ensuring reduced fatigue and safe comfortable use.

E.T.S. ROLLER SYSTEM

The Legacy PRO rear rollers feature an Energy Transfer System (E.T.S.) which absorbs the shock which occurs upon engagement of the drive.

WEIBANG®

ALUMINIUM AIRFLOW CUTTER DECK

The aluminium cutter decks are designed for maximum airflow for maximum grass collection in all conditions. Their anti-corrosion properties ensure a long working life.

PROFESSIONAL CABLES DESIGNED TO LAST

The extra thick cables are made up of 7 twisted strands. Each one of these strands contains 7 individual lengths of steel wire.

CAST ALUMINIUM WHEELS

The heavy duty cast aluminium wheels are built to withstand bumps and knocks during use, while the double ball bearings and rubber tread enable the mower to be easily manoeuvred and gentle on the lawn.

FEATURES & BENEFITS HIGHLIGHTED IN SILVER

COMFORTABLE

The Legacy PRO features a premium designed comfortable and ergonomic handle.

ROBUST QUALITY

Heavy duty adjustable handle brackets with integrated Anti-Vibration Technology. Designed for ease of use, a long life and user comfort.

OPTIMUM COLLECTION

The collector features an integrated air-flow fabric, which indicates when the collector is full. 56 Pro model features an extra large 85L collector.

EXCLUSIVE ROLLER DESIGN

The rear roller is robotically welded, to ensure the highest levels of quality and consistency. The integrated E.T.S. system protects the ratchet system from the shock which occurs upon engagement of the drive.

WEIBANG® CPS (Crankshaft Protection System)

Due to the demands of cutting at low heights, the increased risk of hitting objects and damaging the blade and crankshaft is greater. The Legacy PRO features a CPS (Crankshaft Protection System) to help avoid accidental and costly damage.

DECK PROTECTION

To protect the cutter deck the Legacy Pro features a steel inner liner, as well as removable aluminium skirts, in order to protect the high performance cutter deck.

CLEAR CONTROLS

The operator controls have been specially grouped together in one place, for ease of use.

PREMIUM POWER

The Legacy PRO range is powered by a professional quality Kawasaki FJ180V engine.

Powered by

Kawasaki

SINGLE CUTTING HEIGHT ADJUSTMENT

The cutting height can be changed conveniently using a single spring-assisted hand grip, from 13 - 67mm.

EASY STORAGE

The handles are fully height adjustable and feature a storage and service position.

HEAVY DUTY BUMPER

Heavy duty front bumper protects the cutter deck and can be used as a lifting handle.

UNDER CONTROL

Integrated front grass fins allow airflow to the deck, ensuring maximum performance, even at low cutting heights.

DELIVERING EXCELLENCE IN ANY CONDITIONS

| About the WEIBANG® LEGACY

Designed for parks, gardens and estates to create a formal, high quality, striped finish, the Legacy PRO range can cut down to 13mm. A rear steel split roller ensures easy manoeuvrability, a rear scraper bar protects the roller and a heavy duty, sprung, one handed single cutting height adjustment, makes alterations effortless. Aluminium deck with side bumpers to protect the cutting deck and inner steel deck liners add to the commercial appeal. A heavy duty, professional 3 speed gearbox ensures these mowers are of a premium quality and are designed to last, be that for discerning homeowners or commercial users. The Legacy PRO range also features an unrivalled 3 year commercial warranty (subject to annual servicing).

“They are brilliant machines in wet or dry.
In my opinion they have blown
the competition away”

Ken | Contractor

WEIBANG®

"I've found this mower to be a fantastic machine. It produces outstanding stripes, cuts in all weather conditions and doesn't clog like most other mowers"

Stuart
Contractor

"I have used many, many makes of grass machinery over the years and recently bought a Weibang Legacy of which I can honestly say that it is the best rotary roller mower I have ever used"

Steve
Contractor

"The Weibang goes head to head with any premium brand mower I have used previously used and wins hands down"

Scott
Contractor

"The build quality is superb. You only have to see how thick the cables are"

James
Contractor

THE RIGHT MODEL FOR YOU

LEGACY 48 PRO / 48 PRO BBC

A professional quality 48cm rear roller lawn mower

The Legacy 48 PRO is a professional quality 48cm rear roller lawn mower. Designed for parks, gardens and estates to create a formal, high quality striped finish. Powered by a Kawasaki FJ180V engine with a heavy duty, professional 3 speed gear box. The Legacy PRO range can cut down to 13mm and also features an unrivalled 3 year commercial warranty (subject to annual service).

COMPONENTS THAT **MAKE A DIFFERENCE**

HEAVY DUTY 3 SPEED GEARBOX

The Virtue PRO series features a heavy duty, professional, 3 speed gearbox that is designed to last a lifetime.

HIGH PERFORMANCE AIRFLOW BLADE

The specially designed blade provides the optimum underdeck airflow, for maximum cutting and collection performance.

ALUMINIUM DOUBLE BALL BEARING WHEELS

The heavy duty cast aluminium wheels are built to withstand bumps and knocks when at work, while the double ball bearings and rubber tread enable the mower to be easily manoeuvred and gentle on the lawn. (Alu models)

WEIBANG®

ALUMINIUM AIRFLOW CUTTER DECK

The aluminium cutter decks are designed for maximum airflow for maximum grass collection in all conditions. Their anti-corrosion properties ensure a long working life.

BLADE BRAKE CLUTCH

During development, our blade brake clutch systems were put through 1000s of hours of testing, after which they were still operating at their optimum.

SHAFT DRIVE SYSTEM

The shaft drive system ensures ultimate reliability and performance and requires minimal maintenance.

ADJUSTABLE & COMFORTABLE

The handlebars can be quickly and easily adjusted whilst the anti-vibration system ensures the mower is comfortable to use, even for prolonged periods of time.

PROFESSIONAL GRADE CABLES

The extra thick cables are designed for a long lifetime, even when used in a commercial environment.

FEATURES & BENEFITS HIGHLIGHTED IN SILVER

COMFORTABLE

Fully adjustable handlebars and a premium anti-vibration system ensure comfortable use over prolonged periods of time.

ROBUST QUALITY

Heavy duty adjustable handle brackets, with integrated Anti-Vibration Technology. Designed for ease of use and a long life.

COLLECTION

The collector features an integrated air-flow fabric which indicates when the collector is full.

SHAFT DRIVE

The Virtue SD Series features a heavy duty shaft drive, professional 3 speed gearbox, that is designed to minimise maintenance.

DECK PROTECTION

The Virtue PRO features a steel inner liner, as well as removable aluminium skirts, in order to protect the high performance cutter deck (aluminium models only).

CLEAR CONTROLS

The newly designed operator controls have been specially grouped together in one place, for a simple appearance and ease of use.

ANTI-VIBRATION

Isolating the Virtue SD's handle from the cutter deck reduces the vibration rate and ensures comfortable use during long periods of work.

CENTRAL CUTTING HEIGHT ADJUSTMENT

The cutting height can be changed conveniently, using a spring-assisted hand grip, from 20 - 80mm, over 8 positions.

PREMIUM POWER

Virtue PRO models feature exclusive Loncin shaft drive, or Kawasaki engines.

DECK CHOICE

Virtue SD models feature a choice of steel or aluminium decks, both of which offer exceptional grass collection in all weather conditions.

THE ULTIMATE COMMERCIAL MACHINE

About the WEIBANG® VIRTUE

The Virtue PRO range of 4 wheeled, rotary lawn mowers are manufactured with high quality, cast aluminium or steel cutter decks, designed for optimum airflow and collection ability. Suitable for the professional user whose work depends on it. With a choice of aluminium decked Kawasaki models, or our new shaft drive machines with an exclusive 196cc Loncin engine, fitted with either a steel or aluminium deck, there is a perfect model for any user and any task

"The collection is better than anything else, not a blade of grass left and the mower just doesn't go wrong!"

Scott
Contractor

WEIBANG®

"Without a doubt this is the best mower I have used. Whether I use it in the dry or wet"

Dan
Landscaper

"It just goes through anything, and never drops a blade of grass"

David
Contractor

"It's a great machine that gives a fantastic finish on lawns"

Oliver
Contractor

"Collects grass in any weather and always fills the collector until its packed. Great mower"

Martyn
Contractor

THE RIGHT MODEL FOR YOU

VIRTUE 53 SSD / 53 SSD 3-in-1

An entry level 53cm Pro lawn mower with 3 Speed

The Virtue 53 SSD is a professional quality shaft drive petrol rotary lawn mower with a steel cutter deck offering durability and excellent grass collection. The lawn mower is powered by a Loncin 196cc engine with a 3 speed PRO gearbox and can provide cutting heights ranging from 25-80mm. Now available with 3in1 function and front bumper.

Cutting Width	53CM / 21"
Up to	3000m²
Drive	PRO 3-Speed

VIRTUE 53 SSD BBC / 53 SSD BBC 3-in-1

A versatile 53cm lawn mower with BBC 

The Virtue 53 SSD BBC is a semi-professional shaft drive 53cm (21") lawn mower with a brand new blade brake clutch and is powered by a Loncin 196cc engine. The features found on this high quality robust mower include a new 3 speed PRO gearbox and a 70 litre grass collector. Now available with 3in1 function and front bumper.

Cutting Width	53CM / 21"
Up to	3000m²
Drive	PRO 3-Speed

VIRTUE 53 ASD PRO

A quality 53cm lawnmower with Aluminium Deck

The Virtue 53 ASD PRO is powered by an exclusive Loncin 196cc engine and features a new shaft drive system and 3 speed PRO gearbox. Fitted with a high quality aluminium deck and a central cutting height adjustment, allowing the cutting height to be set at 7 different options, a new handle design and control panel, a large 70L collector, the mower is supplied with 5 year domestic and 3 year commercial warranty.

Cutting Width	53CM / 21"
Up to	3000m²
Drive	PRO 3-Speed

VIRTUE 53 ASD PRO BBC

A 53cm lawn mower with Aluminium Deck and BBC

Based on the original 53 ASD, this model features a brand new blade brake clutch, designed in house at Weibang. With features such as fully adjustable handles, including storage position, heavy duty aluminium wheels, 3 speed PRO gearbox and a Loncin 196cc engine, this shaft drive mower offers full commercial quality.

Cutting Width	53CM / 21"
Up to	3000m ²
Drive	PRO 3-Speed

VIRTUE 53 PRO

A professional quality 53cm lawn mower

The Virtue 53 PRO is a professional quality 53 cm lawn mower offering quality and value for money. The aluminium cutter deck offers durability and resistance against corrosion, with PRO 3 speed power drive and cutting height adjustment from 25 - 76mm. Powered by a quality Kawasaki FJ180V engine.

Cutting Width	53CM / 21"
Up to	3000m ²
Drive	PRO 3-Speed

VIRTUE 53 PRO BBC

A professional quality 53cm lawn mower with BBC

The Virtue 53 PRO BBC is a professional quality 53cm lawn mower with blade brake clutch. Featuring an aluminium deck, front bumper, a 3 speed heavy duty professional gearbox and heavy duty anti-vibration fully adjustable handles.

Cutting Width	53CM / 21"
Up to	3000m ²
Drive	PRO 3-Speed

POWERFUL, HIGH PERFORMANCE, AND 'GREEN'

| About Mulching

Mulching is the process where grass is cut, then recut within the deck, into very small pieces, which fall back into the lawn and act as a natural fertiliser. When done correctly you will never see the grass that falls back into the lawn, instead just a smooth green lush lawn. For optimum performance we recommend you never cut more than 1/3 of the length of the grass.

Generally you can mulch an area around 30% faster than if you were collecting, due to not having to stop and empty the grass bag.

“The finish of the mulch mower is fantastic, even in damp conditions”

Martin
Contractor

WEIBANG®

VIRTUE 53 SMP

COMPONENTS THAT **MAKE A DIFFERENCE**

HEAVY DUTY DOUBLE PULLEY SYSTEM

The unique heavy duty pulley system ensures that the belts on the Weibang scarifiers do not slip and provide increased traction for superior performance.

HOLLOW TINE UNIT FOR QUALITY AERATION

The hollow tined working head of the Weibang aerator is designed to work at a depth of 7cm, to penetrate the soil down to the grass roots.

HARDENED CARBON STEEL SCARIFIER BLADES

The swing blade design offers minimal maintenance, due to its ability to strike objects without bending or breaking. An optional fixed blade cassette is also available.

PRESSED STEEL BODY

The body of the Weibang stump grinder is manufactured from pressed steel and has a hard wearing powder-coated finish to ensure a long life.

INDUSTRIAL STRENGTH BEARINGS

The Weibang Intrepid scarifier features heavy duty industrial strength bearings which support the scarifier unit for smooth and durable operation.

COMMERCIAL GRADE STUMP GRINDER DISC

The large 355mm cutter disc features 8, heavy duty, hardened steel teeth that make light work of any tree stump.

FEATURES & BENEFITS

COMFORTABLE

The heavy duty handles of all Intrepid models feature simple controls that are comfortable to use.

ROBUST QUALITY

The heavy duty steel body is designed for a long life during heavy use. Its powder coated finish helps to prevent rust.

COLLECTION

The 384RB scarifier features a 40L collector for use in smaller areas, to save time on the job.

INDUSTRIAL QUALITY

The industrial strength bearings that support the blade cassette are designed for heavy use and maximum reliability.

HEAVY DUTY WHEELS

The wheels of Intrepid machines are made from heavy duty, high quality materials and are built to withstand professional use.

PREMIUM POWER

All Intrepid models are powered by premium, high performance engines from leading manufacturers.

POWERED by
HONDA

TRANSPORT MODE

The Intrepid scarifier and aerator range features a transport mode for safe movement of the machine between jobs.

EASY STORAGE

The handles are designed to fold down for easy storage and transport.

HEAVY DUTY AXLES

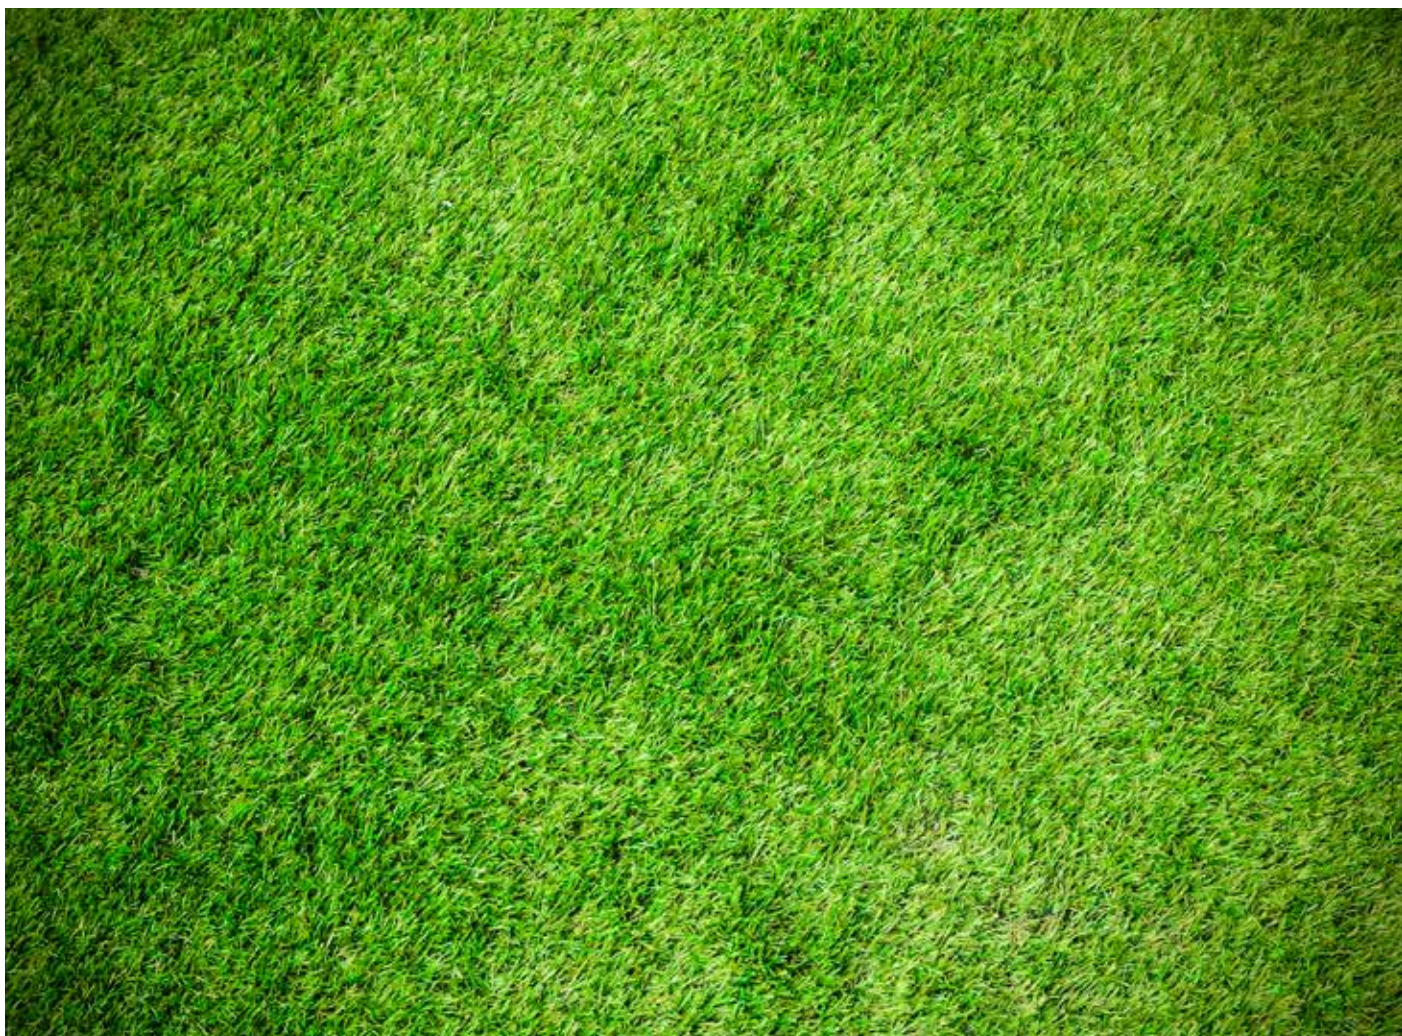

The machines are fitted with extra heavy duty axles to ensure reliability when moving from job to job.

SWING BLADES

The blades on the Intrepid scarifiers are swing tip and made from carbon steel. Offering minimal maintenance even when striking solid objects. Blades can be individually replaced.

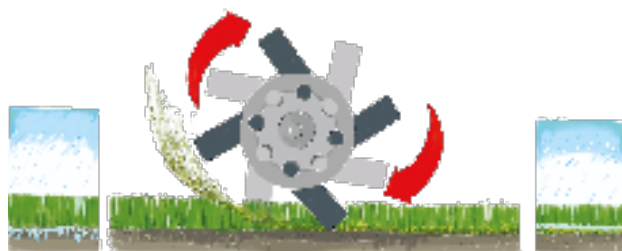

FOR A **GREEN AND HEALTHY** LAWN

| About WEIBANG® Lawn Scarifiers

Controlled by a clutch system, the scarifying rotor is fitted with 22 or 28 double tipped, carbon steel swinging blades. Raking depth is fully adjustable to remove moss and thatch and aerate roots gently but effectively. Powered by an easy to start, reliable, 163cc Briggs & Stratton engine, the Weibang scarifier range has a choice of 38cm or 46cm working width.

The pressed steel body has a hard wearing, powder-coated finish and is extremely durable, ensuring your product lasts.

“We recommend a light treatment in the spring and a more intense scarification in autumn”

Lewis
Dealer

WEIBANG®

"We regularly hire the scarifier out and it is well built, robust, reliable with good depth control and can cope with gardens of any size and in many conditions. Our customers report that their lawns have never looked better"

Graham
Hire Fleet Manager

"The transport position is great for moving the scarifier to your desired area without causing damage"

FOR A **GREEN AND HEALTHY** LAWN

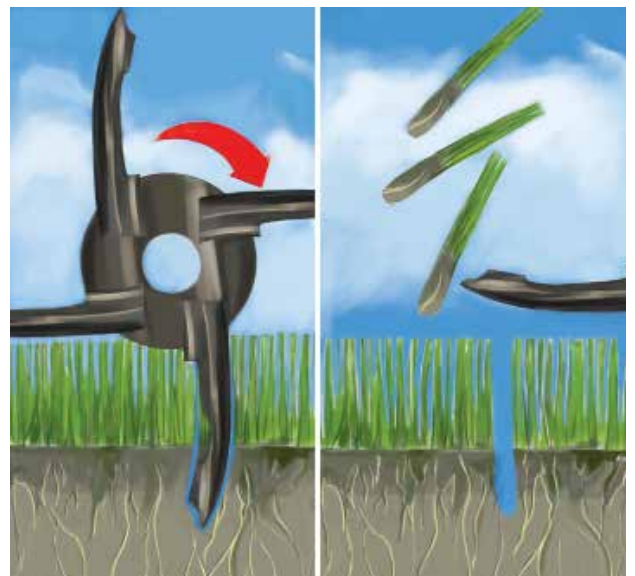

| About WEIBANG® Lawn Aerators

Most lawns are subject to the problem of soil compaction, which makes it difficult for the grass roots to breathe. The Weibang lawn aerator improves drainage and relieves compaction in the soil. It also breaks up old roots to promote the growth of new ones.

“Autumn is the perfect time for hollow tine aerating as it improves drainage and increases soil temperature”

Jonathan
Dealer

INTREPID 457AB

A quality 46cm aerator to help you achieve a healthier lawn

The WB457AB is a 46cm aerator which helps maintain a healthy lawn. Aeration is the process of penetrating and removing soil from the lawn, all the way down to the roots. This not only helps reduce compaction and improves drainage, but also allows water, nutrients and light to penetrate the ground, resulting in a healthier lawn.

CUTTING **TURF** IS EASY

| About WEIBANG® Sod Cutters

The Weibang Sod Cutter quickly and efficiently cuts strips of grass including the roots and soil for turf removal or transplanting. The blade of the sod cutter vibrates at high speed to ensure a clean cut to the underside of the turf to maintain the best chance of successfully re-establishing. Depending on the surface in question, there are adjustments that the operator can make to change the cutting depth and angle to ensure optimum performance.

“Fast, efficient, and very well built”

Daniel
Contractor

INTREPID SC409H

A powerful sod cutter to make light work of cutting turf

The SC409H is a high quality professional sod cutter for use in sod transplant. Cutting uniform strips which can be rolled for transportation and relocation.

The machine features an 18" cutter blade with fully adjustable blade angle and cutting depth down to 50mm. A heavy duty construction and full anti-vibration system ensure a long life and optimum user comfort.

CLEAR TREE STUMPS **QUICKLY AND EFFICIENTLY**

| About WEIBANG® Stump Grinders

Tree stumps are difficult to remove without the use of heavy plant equipment, which damages the ground. The Weibang stump grinder makes light work of almost any tree stump, grinding it below the surface of the ground with its 8-tooth, hardened tipped cutter disc. With minimal ground damage compared to excavation equipment, the area will look in peak condition in no time.

“The WEIBANG is very powerful and robust”

Luke
Contractor
