

## **LORRY MOUNTED CRANE (HIAB) PACKAGES**

### **Why choose us?**

Daly Transport Training is a professional driver training company who understand company shift patterns and workloads, that is why we will come to you, wherever you need us, when you need us. Keeping your costs and employee downtime to a minimum!

Our Lorry Mounted Crane (also known as HIAB) training courses enable candidates with no crane experience through to refresher candidates to progress through the course and on success completion will qualify them as a lorry mounted crane operator. The course includes both practical and theory training.

### **Who are ALLMI?**

ALLMI are the most recognised organisation within the lorry loader industry and is CSCS approved meaning it can deliver to construction sites. The ALLMI lorry loader course has been awarded the Health and Safety Executive's 'Working in Partnership' logo of recognition and is the only lorry loader training scheme in the UK to have received this commendation from the HSE.

### **What you can expect from our training packages:**

- ✓ Training carried out by our friendly experienced instructor
- ✓ Receive the official ALLMI operator's manual
- ✓ Identity card and certificate issued by ALLMI upon successful completion of the course which are valid for five years
- ✓ Registration on the ALLMI operator database
- ✓ Competitive prices with group discounts

### **Course Levels**

#### **2-Day Novice (Beginner)**

This novice course includes one attachment and is held over 2-days and is ideal for operators who have no lorry mounted crane experience. This course will cover the use of the remote control, if your lorry loader has one to manoeuvre the crane as well as one attachment, either Brick Grab or Hook or Clam Shell.

#### **1-Day Experienced (Some use with no previous formal training)**

The experienced operator course takes 1-day to complete and is perfect for operators who have previous experience of operating a lorry mounted crane, but do not have any formal training or licence.

#### **1-Day Refresher (Renewing a previously obtained licence)**

The refresher course is a 1-day long programme which is ideal for candidates who already have or had a certification for a lorry mounted crane, the candidate must have had at least 15 hours in the last 12 months using a lorry loader.

#### **1-Day Conversion (Adding additional attachment/s to licence)**

This conversion course allows you to add extra attachments to your existing ALLMI Certificate.

*(Please note - It is best to renew your existing qualification and add extra attachments at the same time to avoid any new attachment expiring at the same date as your existing ALLMI certificate so they will all be valid for the full 5 years).*
