

## ISO 14001:2015: LEADERSHIP AND COMMITMENT WORKSHOP

### Who is it for?

This course will provide your senior management team with ideas for environmental improvements and information on programmes that can provide the skills for your workforce. It will specifically assist your business in meeting the following new standard requirements;

- Clause 4.1 – ‘Understanding the organisation and its context’
- Clause 5.1 – ‘Leadership and commitment.’

### Learning Outcomes: Includes:

- Understanding the changes to ISO 14001:2015 and their intent.
- Identify and plan actions to enable an organisation to conform to, and so realise the benefits of, the new requirements.
- Assisted PESTLE Analysis to understand the context of the organisation and to identify future objectives and targets.

**Course Duration:** Half Day

## FOUNDATIONS OF ENVIRONMENTAL LAW

### Who is it for?

This course is ideal for learners that want to increase their awareness of environmental legislation and ensure compliance within their organisation.

**Course Duration:** Half Day

**Please contact us for further course information.**

## INTERNAL EMS AUDITOR COURSE

### Who is it for?

This course is ideal for anyone responsible for carrying out Internal EMS Audit in their organisation. This course is practical and based around the internal environmental management system audit requirements of ISO 14001. During the course you will plan an audit, develop audit checklists based on the requirements of ISO 14001 and complete a live audit on site, concluding with writing an audit report.

### Learning Outcomes:

During the course you will cover:

- Environmental Management Systems (EMS)
- Auditing compliance with environmental legislation
- Auditing techniques and principles
- Audit preparation and planning
- Conducting the audit
- Live On-Site Audit including site walk around, document review and interviews
- Audit reporting and follow up action
- Raising non-conformances
- Setting corrective and preventive actions

**Course Duration:** 14 Hours (2 days)

### Assessment:

Completion of the live site audit
