

**BREW  
COFFEE  
PLUS**

# Small is beautiful

We source specialty coffee from small holder producers in Central & South America and East Africa. We always roast 100% arabica in order to provide clean, sweet cups.

# Ethical, seasonal and of the highest quality

We don't want to be the biggest specialty coffee roastery, only the best. That is why we source from small farms, buy from importers who pay up to 150% more than the cost of production to producers and always offer coffees that are currently in season.

# Get more done, be happy about it

Coffee is widely accepted as a great way to improve alertness, thus improving performance and creativity amongst the workforce. Not only this but it is a great addition to company culture too.

# Simple, fresh, consistently convenient

Handmade in the Netherlands since 1964, the Moccamaster is an ingenious handsfree coffee brewer that is designed to hold brewed coffee at the perfect drinking temperature.

# Save time, save money

With freshly brewed specialty coffee a few metres away, there'll be no need to wait in line at the local coffee shop anymore. At a cost of just 50p per cup, you and your team will be able to spend your hard-earned money on more necessary things.
