**Price List 2019**

**01297 32002**

Established near Axminster in 1961, Westcrete is a traditional family run business that remains proud of its local roots. From humble beginnings as a "one man band" business producing concrete lintels, the company has steadily grown over the years. Many concrete products were manufactured by us in the 1990s but with changing economic conditions the company decided to change the focus of its activities.

Westcrete now supplies a wide range of landscape and building materials to trade and retail customers in the Axminster area and as far afield as Ilminster, Sidmouth, Lyme Regis and Honiton. Our small fleet of vehicles incorporates a tipper and flatbed with crane off-load facility, and mini-mixer. These vehicles give us a highly flexible and customer friendly delivery capability. Our drivers are also experts at getting into those tight spaces!

We also produce ready mixed concrete. With our substantial knowledge of concrete mix design, the use of a computer controlled batching plant and our highly skilled staff we produce a range of concrete screeds of consistently high standard.

With over 50 years experience in concrete, landscaping and building supplies, Westcrete can offer unparalleled practical and technical advice and support to help customers bring their projects to a successful conclusion.

Westcrete is founded on traditional business values, striving to give customers the best possible level of service, sourcing quality products at realistic prices and operating a first rate delivery service. This will continue to be our aim in the years ahead.

Don't forget to check out our website [www.westcrete-ltd.co.uk](http://www.westcrete-ltd.co.uk) for the latest special offers and promotions, it also offers a useful selection of information which includes hints & tips, plus a selection of patio laying pattern sheets to print out.

# HERE TO HELP!

## Imperial to Metric Conversion Table

Imperial		Metric	
1 inch (in)		25.4 Millimeters (mm)	
1 Foot (ft)	12 in	0.3048 Meter (m)	304.80 mm
1 Yard (yd)	3 ft	0.9144 m	
1 Cubic Ft		0.0283 Cubic m	
1 Sq. Ft		0.093 Sq. m	
1 Pounds (lbs)		0.4536 Kilogram (kg)	
1 CWT (Hundred Weight)		50.8kg	

## Calculate you own Concrete

*Length x Width x Depth = Volume required*

*4.5m trench which is 600mm wide and 1.0m deep would require 2.7m<sup>3</sup> by using the calculation above.*

## Paving Slab Sizes

Metric	Imperial	
300 x 300mm	12 x 12 in	1 x 1 ft
450 x 300mm	18 x 12 in	1½ x 1 ft
450 x 450mm	18 x 18 in	1½ x 1½ ft
600 x 300mm	24 x 12 in	2 x 1 ft
600 x 450mm	24 x 18 in	2 x 1½ ft
600 x 600mm	24 x 24 in	2 x 2 ft
750 x 600mm	30 x 24 in	2½ x 2 ft
750 x 750mm	30 x 30 in	2½ x 2½ ft
900 x 600mm	36 x 24 in	3 x 2 ft

products (preferably in dry conditions in daylight) before purchase. It is also recommended that where possible, products are selected from the same production batch.

**SURFACE APPEARANCE** Occasionally, dark and light patches may occur on the surface of the paving. This is due to differential weathering, where the surface of the paving has cured at different rates. These patches will generally disappear with time.

**EFFLORESCENCE** Westcrete cannot accept responsibility for the effect of "efflorescence" which can be a characteristic of all good quality products with a high cement content. The phenomenon may be exhibited by an apparent loss of intensity of colour and the appearance of a milky white bloom on the face of the product. The effect generally disappears with time and is in no way detrimental to the performance of the product.

## READY MIXED CONCRETE

We supply ready mixed concrete for delivery or collection in a range of grades with 10mm or 20mm aggregate.

Grade	Equivalent	General Application
C15	GEN 0, 1:3:6	Weak mix for fixing fence posts or bedding kerbs, infill around septic tanks
C20	GEN 1	Foundations/footings mix, trenchfill, blinding, drainage works, patio paving bases
C25	GEN 2, 1:2:4	Oversite mix for concrete above damp proof course level e.g. House floors, pathways, shed bases
C30	GEN 3, RC30	Garage floors, barns for light storage, workshop floors. This concrete can also be used for concrete with rebar/steel reinforcement
C35	RC35	Stables, livestock areas, heavy duty agricultural uses, shuttered walling
C40		Abrasive, heavy load resisting applications, river/water works

A wide range of other mixes are available for special applications

### Floor Screeds

West-Screed - Conventional sand and cement screed with retarder/plasticiser

Mesh-Screed - Conventional screed with retarder/plasticiser and added fibermesh polypropylene fibres

Dura-Screed - Includes SBR Bond which improves the water resistance, flexibility & long term durability

Dura-Screed+ - Includes SBR Bond and Fibermesh to produce a high performance external screed

### Admixtures

Retarder/Plasticiser - Used to control and extend the setting time of concrete and screed

Accelerator - Used to protect concrete when placing in low temperatures by accelerating the setting and hardening rates (not suitable for concrete containing embedded metals)

Waterproofer - Used to reduce permeability and absorption and to impart water repelling properties

Water Reducing Admixture - For improving mix design and workability

Air Entrainer - Used to improve the workability, cohesion and durability of concrete mixes

### Additives

Fibermesh - Polypropylene fibers are designed to inhibit micro-cracking and bleeding when placing concrete and to replace crack-control steel-wire fabric, to produce a tougher more durable concrete

Colouring Pigments - Available in Red, Hamstone, Yellow, Marigold and Black

Minimum Quantities: Collected 0.13<sup>3</sup> and Delivered 0.5m<sup>3</sup>

Maximum Delivered 3m<sup>3</sup> per load.

Please note that waiting time in excess of 30 minutes on site is charged at the rate of £38.40 per hour inclusive of VAT.

Please contact us for competitive prices for all your requirements.

## NATURAL QUARRIED PAVING, WALLING AND ROCKERY STONE

### CRAZY PAVING

# PAVESTONE Pointfix

## All Weather Epoxy Jointing Compound

Professional Pointing Made Easy

**ONLY £31.99**

per 12.5kg Tub

- No specialist tools
- Fast application
- No waste - only mix what you need
- Simple to use
- Cost effective
- Quick curing
- Can be applied to wet surfaces even when raining
- Prevents weed growth
- Pet friendly

Use even when wet!

Professional pointing in 6 simple steps

For additional technical information, please refer to the label on the reverse of the Pointfix tub.

## DECORATIVE GRAVEL, AGGREGATES AND CEMENT

4 Bags for £11.80 on any mix of 25kg Bags marked with a \*
