Our Services Include:

- 'Puppy Home Start' visits in your own home
- Puppy socialisation and basic training classes
- Dog obedience training to all levels

We all love puppies and their hilarious antics but they are highly intelligent and will seize every opportunity to take advantage of us if we let them. Although great fun when they are small they can become a nightmare to live with if bad habits are allowed to form as they get older.

We have been working with dog owners in the area since 1986 and can assist you in the prevention or correction of such unacceptable habits as:

- Play Biting, Jumping Up
- Climbing on your furniture,
- Stealing food, children's toys, shoes, etc.
- Chewing anything they can get hold of,
- Challenging you when told off, or barking,
- Digging up the lawn and flower beds,
- Toilet training, feeding and much more.
