

The difference is night & day

Equinox - tiled roof system

Is your conservatory too hot in summer? Too cold in winter?

Here's the solution

Traditional conservatories can uplift and enhance any home. Yet despite the extra light and space they provide, they can be subject to the elements, becoming too hot in the summer and too cold in the winter. Now, thanks to the new **equinox™** tiled roof system, you can transform your conservatory from an under utilised space, into a cosy, welcoming extension to your home that provides the same levels of comfort – 24 hours a day, 365 days of the year.

Versatile roof spaces

for any conservatory

equinox™ tiled roof systems are compatible with all types of conservatories – whether it's a small lean-to or a large-scale P-shaped design – we can truly transform any space to suit your needs. Hipped or mono-pitch designs can easily be achieved, and the traditional aesthetics of **equinox™** ensures your roof will complement your conservatory and its surrounding environment.

Victorian

Gable-end

P-shaped

Attractive styling inside and out

The internal surfaces of your **equinox™** roof can be finished with a modern plasterboard or tongue-and-groove timber ceiling – creating the look and feel of a conventional home extension.

If you want to maintain a light, bright and airy environment, then optional roof windows will flood your conservatory with natural light – without the harsh summer glare of traditional conservatories.

Premium quality roof windows with a choice of features are available – just ask your installer for more information.

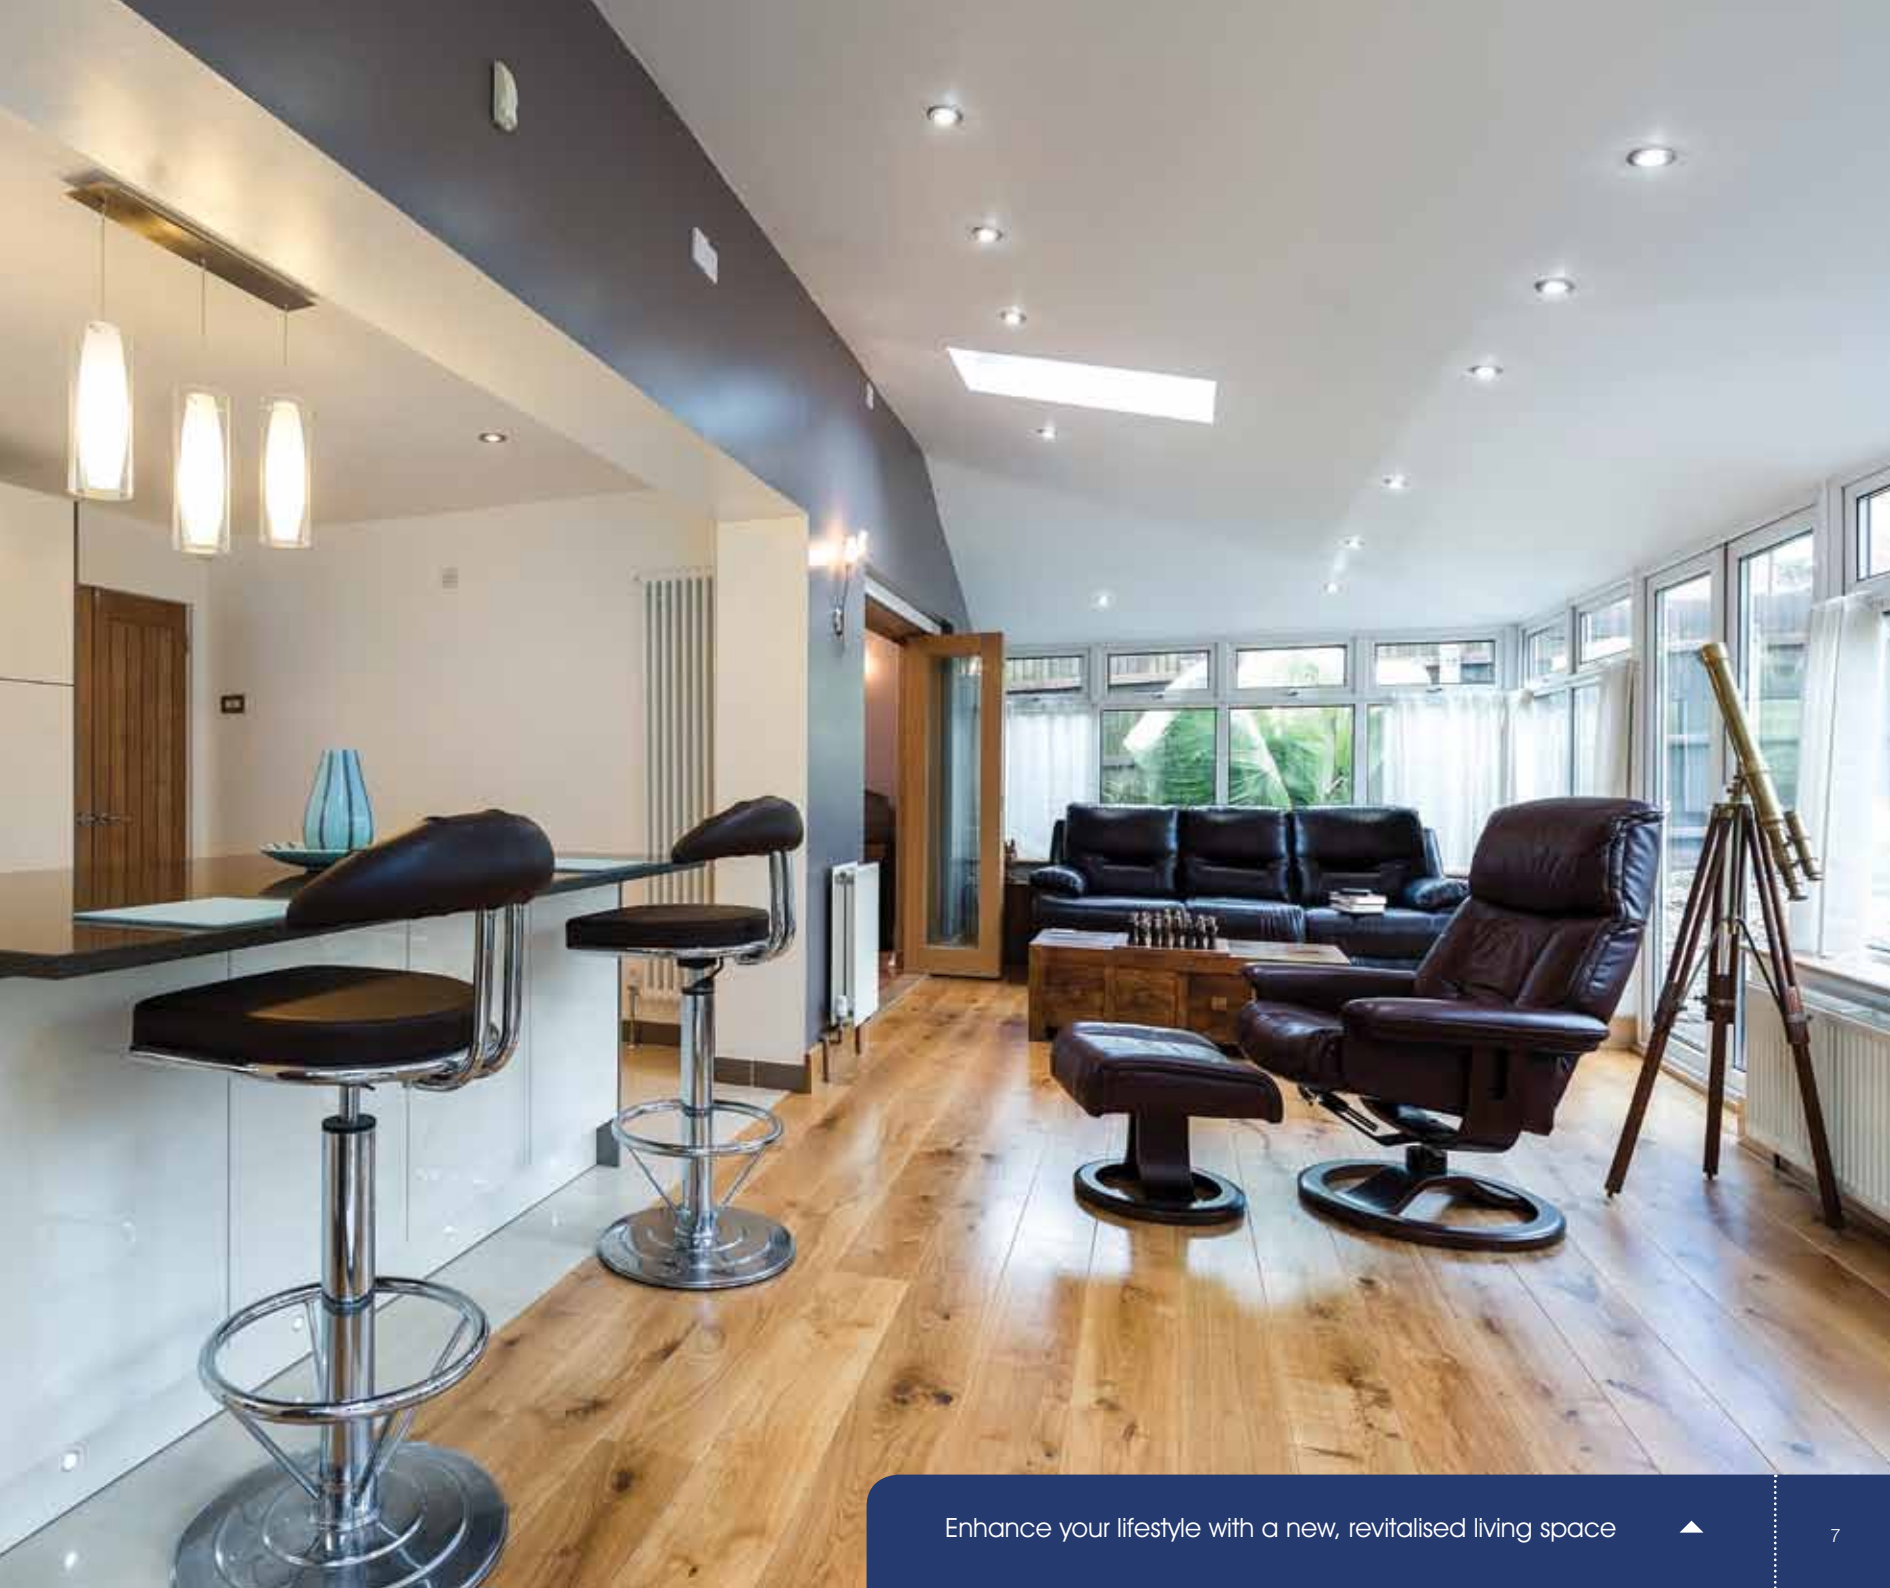

Retain natural light with roof windows

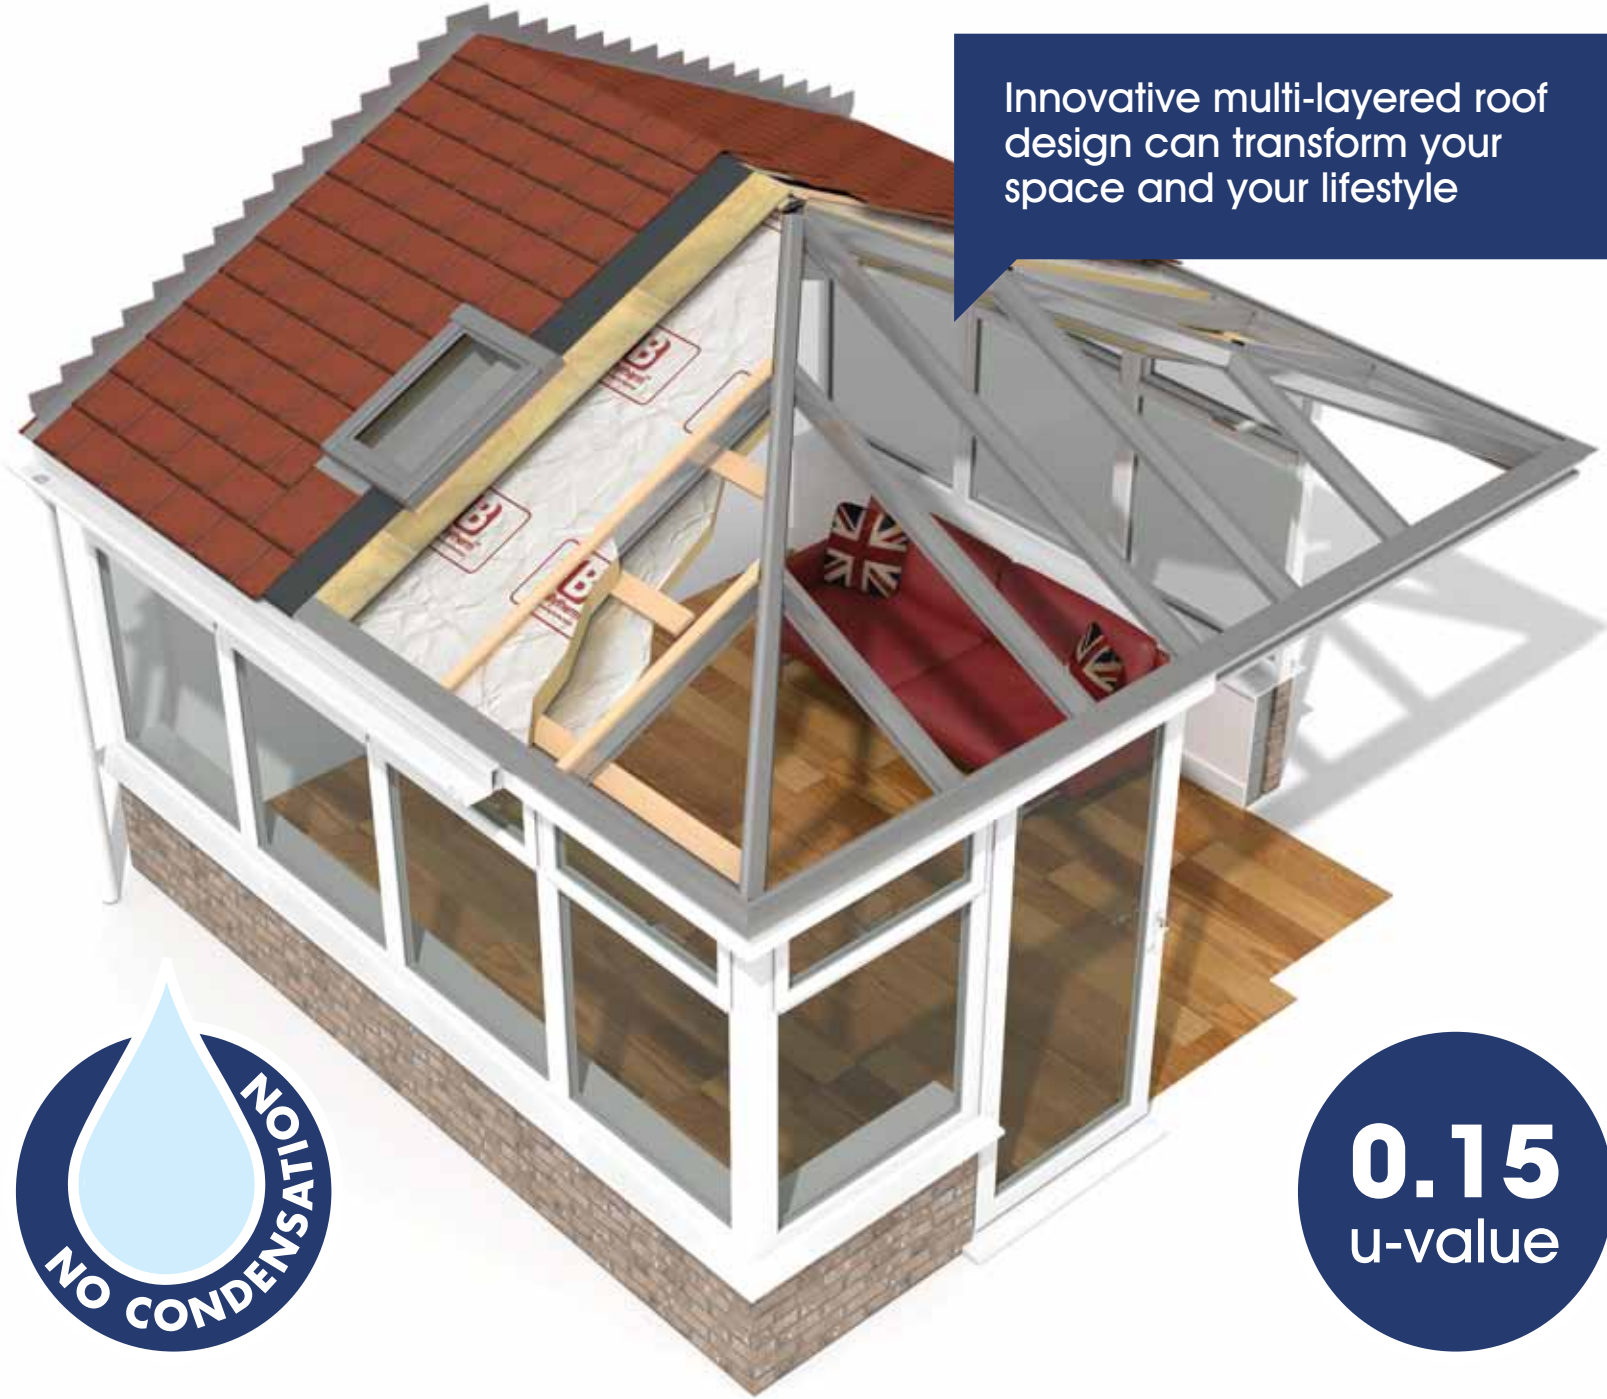

A modern, plastered finish

Traditional tongue-and-groove panelling

Innovative multi-layered roof design can transform your space and your lifestyle

0.15
u-value

Higher comfort levels – lower energy bills

Pocket energy bill savings

The fully insulated roof design achieves u-values as low as 0.15. This exceptional thermal performance minimises heat loss – which translates into reduced energy bills.

Reduce noise and glare

Glass and polycarbonate roofs can produce glare in sunlight and become noisy during rain or hail showers. **equinox™** dramatically reduces these issues so you can use your space undisturbed.

365 day comfort

Enjoy your conservatory whatever the weather! Come rain or shine, you will experience comfortable temperatures all year round.

Fully guaranteed

The **equinox™** tiled roof system is guaranteed for 10-years with a warranty on tiles of up to 50 years!

▲ Standard steel tiles (shown in Burnt Umber)

▲ Premium slates (shown in Pewter Grey) offer authentic looks

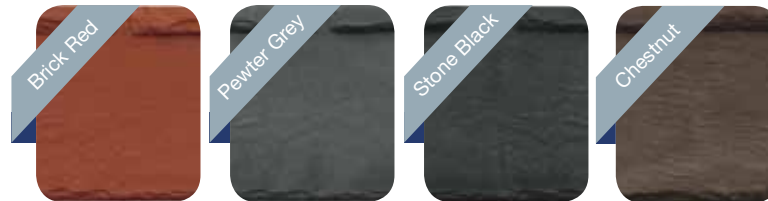

Choose your tile options

Standard Steel tiles

Our standard tiles are made from lightweight steel, available in a choice of colours to suit your individual style and budget.

Premium Composite slate

Manufactured from a recyclable blend of slate and polypropylene, composite roof slate offers the authentic natural looks of traditional slate roofs without risk of shattering, fading, warping or cracking.

Plus! Fascias, soffits & guttering*

* Guttering is colour matched to your choice of fascias and soffits
