How we work out pricing:

Basic and premium show prices are for all types of event including Weddings.
There is no price hike for any type of event including bank holidays.

The static prices come about by spreading the volume of work through-out the year so that it is fair to everyone.

If you have extremely tight budget, we are not the cheapest disco nor are we the most expensive. We offer high end customised quality show , with decades of experience and music knowledge.

If for any reason it's still way off your budget, we can offer help and advice and sometimes recommendation of other shows that will help you.

So it always pays to give Tim a call and he will try to help and assist wherever he can, you are under no obligation at anytime, as its all part of our service as to what most professionals do.

Wow! What can I say? Thank you all so much for making last night such a great event. All those months of ago when we started planning it we had no idea that it would be as much fun as it was. DJ Tim did an awesome job of recreating the 80s atmosphere, the bar staff kept up demand to. We raised over £500 for the Macmillan Cancer Support
