Welcome to **Quality windows & doors**

Window on your world

The look and style of your home says a great deal about you. Doors and windows are a prominent feature on any property and really dictate the character of your home. As well as creating a first impression for visitors, they play a crucial role in weather-proofing, insulating and securing your property.

Installing high-quality PVC-U doors and windows is the best-value home improvement you can make. At a stroke you can improve the appearance, energy efficiency and security of your home – all at an affordable cost.

Styles to suit every home

We can create a complete range of window and door types to suit any home. From classic casement windows to innovative tilt-and-turn styles, plus classic vertical sliders, French windows, entrance doors and bay windows.

to your home

Colour-match guarantee

Because all our frames are produced by the same manufacturer – Eurocell – we can assure you that all colours are exactly matched across our entire range of window and door products. It means that our whites are the same white across all products and our woodgrain finishes are all perfectly matched. No matter what the age, style or size of your property, we can create high-quality windows and doors to enhance and add value to your home.

Ovolo casements in Cream finish with astragal bar.

High-security system

Our PVC-U windows and doors are durable and robust, giving long-life, low-maintenance performance, with no need for painting or other treatments. They are fitted with high security locking mechanisms too, giving you the peace of mind that your home is well protected against intruders.

Energy efficient design

Our multi-chambered frame designs deliver exceptional energy efficiency for both windows and doors – helping to keep your home warm and comfortable all year round, as well as reducing your energy consumption. Our slim frames also allow the area of glass in windows to be optimised, maximising the amount of natural light within your home.

Refresh your outlook on the world

Windows are the showcase feature of your home. They determine the character and appearance of your property, whether it's a chic apartment, a traditional Victorian terrace or a stylish new-build house. Windows frame your view of the world from within and define the appearance of your home from the outside.

It's essential to choose windows that complement the style of your home, provide long-life protection against the elements and enhance the security of your property. With our versatile PVC-U windows, you can rest assured that you will find an attractive, secure, energy-efficient style to suit your home.

A question of aesthetics

The contemporary styling of our PVC-U windows includes a slimmer frame, giving a sleek, unobtrusive appearance and maximising the area of glass in your windows. That means more natural light in your home and a clearer view of the outdoors for you.

The aesthetics of your window can be enhanced to match the architectural style of your home with a range of stylish accessories. Georgian bars, mock horn sashes and arch-top inserts can help you to create an individual look that perfectly complements your property.

Windows

Stylish and secure – & tailor-made for you

Framed in style

Our windows are available with two distinctive styles of frame and beading. The chamfered option is a contemporary, straight-edged style, while ovolo sculptured beading gives a more traditional, decorative finish to your window. Both options are available across our entire range of windows, giving you complete flexibility to select your preferred style. You can even mix and match chamfered and ovolo frames to create a unique style all of your own.

Energy efficiency

Warm
in winter...

Built-in thermal efficiency

Our window frames feature an advanced multi-chambered cross section which helps to prevent heat loss and enhance thermal efficiency. This means we can create windows that meet the highest energy efficiency ratings.

Windows that make the grade

Window Energy Ratings are a simple, clear and easily understood method of informing customers of the relative energy efficiency of a particular window. The windows are rated on an 'A++' to 'G' scale, which is consistent with other products such as lightbulbs and white goods. An 'A++' rating signifies the most energy-efficient products, a 'G' the least efficient. Current building regulations require a 'C' rating. Our windows can be designed to achieve any rating on this scale, according to your needs and budget.

Comfortable homes with lower running costs

Windows have a vital role to play in conserving energy in buildings, since 20% of the heat escaping from an average home is lost through its windows.* Choosing the right combination of glazing and window frames is essential to improve the energy efficiency of your home, reduce your energy costs and, crucially, create a comfortable living environment for you and your family – all year round.

Recycled materials

Our windows represent a genuine sustainable option. Not only because they help reduce CO2 emissions, but also because PVC-U is a fully recyclable material. Each year, tens of thousands of tonnes of PVC-U are recycled, minimising impact on landfill waste sites.

Good for your pocket – and the planet

Conserving energy in our homes is essential to help reduce energy bills and protect the environment by cutting carbon dioxide emissions. The fact that our homes and buildings are responsible for almost half of the UK's carbon dioxide emissions means that improving energy efficiency in all dwellings is a top priority for the Government and homeowners alike.

Safe
and secure

Protect your property

Your windows play a crucial role in securing your home against unwanted intruders. In addition to being secure, they need to be robust and durable enough to withstand the wear and tear of everyday use – as well as everything the British weather can throw at them.

Low-maintenance option

One of the principle benefits of PVC-U windows over any other material is that they require no maintenance, other than the occasional wipe down with a damp cloth – no painting, no preservative treatments, no hassle.

Safe and secure

Protecting your property against unwanted intruders is a primary concern for every homeowner. That's why our windows have been designed to deter burglars and secure your property against forced entry. For a start, all of our windows are internally beaded, which means the glazing units cannot be removed from the outside.

That's a major deterrent to burglars. What's more, our windows can be fitted with the most advanced security hardware on the market, including shoot bolts, locking handles, heavy-duty security hinges and hinge guards.

Styles to suit every home

Casement windows

This simple and functional window design is ideal for all types of property. It is the most popular and widely used style of window in the UK. Our casement windows can be either top-hung opening or side-hung opening to suit your requirements, providing excellent ventilation and security. You can choose clean-cut chamfered beading or a more decorative sculpted ovolo finish, according to your tastes, and consider internal or external Georgian bars.
