

Protect what you *love*

Residor®

residor.co.uk

Welcome to Residor

From the everyday trips, to work or the supermarket, to those life changing adventures, like a summer holiday or the first day of school, it's important to know that no matter what life throws at you, your home is safe and sound.

Introducing Residor: A new, affordable foam core door, brought to you by the people that make Solidor. Most foam filled doors on the market are coated with a 1.6mm plastic skin, which offers a low level of security and fails to pass the most recent security regulations.

Residor, on the other hand, has a 3.6mm skin that complies with the most up to date PAS24:2016 security test guidelines. It also comes fitted with an Ultion cylinder that offers a £1000 break-in guarantee.

Stunning Looks

Residor looks great and is available in a wide variety of styles, and because we supply any colour, you can choose the perfect door for your home.

We've been handcrafting doors in Great Britain for over twenty years, so we know what matters most.

When it comes to your home, it's not just important to protect the contents of your building, it's essential to protect what you've spent your lifetime building.

Trust Residor to protect what you *love*.

Most Secure

THE MOST SECURE GRP COMPOSITE DOOR YOU CAN BUY HAS ULTION FITTED AS STANDARD

When it detects an attack, a hidden lock within the Ultion cylinder automatically engages, so that even when snapped twice, nothing gets past it. Leaving a key on the inside of the lock won't affect its performance, unlike most doors.

Offering Sold Secure 'Diamond Standard' security, Ultion has passed tests that even the finest 3 star locks can't achieve, making it the UK's best and most secure lock - offering a £1000 break-in guarantee!

Know the difference

Glass Reinforced Plastic doors (GRP) are made by coating a foam slab with a tough plastic skin. Most other GRP doors are just 1.6mm thick, and so fail to meet security standards.

At **3.6mm**, Residor is more than twice as thick as the majority of GRP doors on the market. It also complies with PAS24:2016 and is Secured by Design.

Thick Skinned

EVEN MORE BURGLAR PROOF AS STANDARD

WHEN TURNING A KEY REALLY MEANS LOCKED

£1000 GUARANTEE

The Turnberry

A modern take on a traditional cottage style

Turnberry in Green - Etch Art Fusion Glass

The Turnberry with its elongated glazed unit is the perfect choice if you want to let additional light into your hallway. Keep it traditional with styles such as Zinc Art Classic (pictured above) or add some drama with the Potomac.

Features

Ultion Cylinder, Era Lock, Halo outer frame, Twin Seal, PAS24:2016 Slab, Adjustable hinges, White internal, Stainless Steel hardware.

Hardware Colours

The Chilwell¹

The natural choice if you're looking for natural light

With such a large area of glass, you really have a great opportunity to personalise your door. You could adopt a more subtle approach and fit a London design (pictured). Alternatively you can make more of a statement and go with the Abstract style (see page 23)

The Key Choice!

Have a large household? No problem! With Residor you can choose to have three or six keys delivered with the door.

Features

Ultion Cylinder, Era Lock, Halo outer frame, Twin Seal, PAS24:2016 Slab, Adjustable hinges, White internal, Stainless Steel hardware.

The Chilwell²

With two elongated arched glazed panes, this door style is a twist on the traditional

“ Our new Residor looks and feels more secure. It has stopped the drafts coming in and the change of colour has improved the front of our home. ”

The Taylors

have lived in their three bed detached house in Staffordshire for the past 16 years. “Our old door was installed when we first moved in.

As the years passed the handles had pitted, the colour had become more ‘off white’ than white and it let in a terrible draft.

We chose the Chilwell² as we really liked the feature of the two arched glazed units and decided on red, as it complements the brickwork on the exterior.”

Features

Ultion Cylinder, Era Lock, Halo outer frame, Twin Seal, PAS24:2016 Slab, Adjustable hinges, White internal, Stainless Steel hardware.

The Kendrick³

An eyecatching contemporary design featuring three glazed units for ultimate curb appeal

3.6mm GRP Skin

Most foam filled doors on the market have a 1.6mm skin which does not comply to the latest security standards. However, a Residor comes with a 3.6mm reinforced plastic skin, which complies with all of the relevant standards.

Features

Ultion Cylinder, Era Lock, Halo outer frame, Twin Seal, PAS24:2016 Slab, Adjustable hinges, White internal, Stainless Steel hardware.

The Timperley

at home with the Stevens

“ Our new Residor has allowed us to complement the traditional arched features at the front of our house whilst modernising it with a contemporary anthracite grey hue. ”

Mr & Mrs Stevens

live in a 1980's style detached house in Oxford with their two children and pet dog.

“When we moved into our house 12 years ago we inherited a blue wood panelled door with an old mortice lock. The panels would move in bad weather, making the door look like it needed repainting.

The lock was really stiff and awkward and our children found it particularly difficult to get in and out of the house.

Timperley from Residor has totally changed this though. The lock is really easy to use and the house no longer rattles when the door is closed!”

Features

Ultion Cylinder, Era Lock, Halo outer frame, Twin Seal, PAS24:2016 Slab, Adjustable hinges, White internal, Stainless Steel hardware.
