About us

Thank you for choosing Michael's gutter cleaning to clean or replace your gutters. We are a small family business operating from our base in Skipton and we cover a wide geographical area, including York, Harrogate, Leeds, the Yorkshire Dales, Lake District, Manchester, Lancaster, Blackpool and Southport within a two hour drive radius.

We are part of a sister roofing company with over 16+ years experience in the trade. We started Michael's gutter cleaning to give our customers old and new the option of a professional gutter clean at a reasonable price.

How do we clean your gutters?

As well as cleaning gutters traditionally by hand using ladders we also use the SKY vac industrial and atom system from the ground to help us reach gutters on high level properties and to reach those awkward spots. The extendable carbon fibre poles have a reach of up to 40ft. Please note although sky vac can reach 97% of gutters some cannot be reached using the sky vac or ladders and would require scaffold which is not included.

What we do

- We estimate quotes using google maps and will visit larger and more complex jobs in person pre quote.
- Clean the inside of gutters. *please note unless it is raining during our visit it is difficult to pinpoint leaking. If you aware of areas of concern it is helpful to know pre visit.
- We remove all waste collected from the gutters
- We will explain the gutter advice sheet to you in person if you are home at the time of our visit
- To abide by health and safety laws most of the cleaning is done by the sky vac
- We use truck mounted platforms (cherry pickers) at additional cost for cleaning gutters where the pole system does not reach. Our team are fully trained and we do have comprehensive insurance.
